

TABLE OF CONTENTS

PREFACE	i
INTRODUCTION	1
Chapter I. PHYSICAL AGGRESSION	9
1. Aggressive Response To Pain From An Illness or Medical Condition	10
2. Aggressive Response To A Painful Transient Condition	12
3. Aggression When Others Interfere With Compulsions	14
4. Ictal Aggression During Nonconvulsive Frontal Lobe Seizures	16
5. Ictal Or Interictal Aggression In Persons With Temporal Lobe Seizures	18
6. Drug-Induced Aggression	20
7. Aggression Associated With Hallucinations And/Or Delirium	22
8. Flashback-Related Aggression In Persons With Post-Traumatic Stress Disorder	24
9. Reactive Aggression	26
10. Pre-Meditated Aggression	28
11. Learned Behavior From Observing Others Or Being Rewarded For Aggressive Responses	30
Chapter II. SELF-INJURY	33
1. Self-Hitting Related To Localized Pain Or Discomfort	34
2. Injurious Eye-Poking Or Attempts To Remove The Eye	36
3. Injurious Self-Rubbing	38
4. Frontal Lobe Ictal Movements That Are Self-Injurious	40
5. Self-Injury Related To Temporal Lobe Seizures Or Temporal Lobe Dysfunction	42
6. Intrusive Urges To Harm Oneself (Horrible Temptations)	44
7. Compulsive Self-Injurious Actions In Persons With Obsessive-Compulsive Disorder	46
8. Self-Injurious Acts During Depressed And/Or Dissociative States	48
9. Self-Injurious Acts Associated With Intense Anger	50
10. Self-Mutilation In A Delusional Or Psychotic State	52
Chapter III. SCREAMING	55
1. Screaming In Response To Physical Pain Or Discomfort	56
2. Screaming To Communicate Anger Or Distress	58
3. Screaming To Escape Or Avoid Something	60
4. Screaming For Care And Attention	62
5. Intense Involuntary Screaming	64
6. Medication-Induced Vocalizations	66
7. Screaming During Flashbacks/Post Traumatic Stress	68
Chapter IV. SLEEP DISTURBANCES	71
1. Pain-Related Sleep Disturbances	72
2. Environmental And Sleep Hygiene Factors	74
3. Insomnia Or Excessive Daytime Sleeping During Depression	76
4. Mania And Sleep	78
5. Hyperthyroidism And Sleep	80
6. Medication-Induced Sleep Disturbances	82
7. Insomnia During Neuroleptic Withdrawal	84
8. Sleep Disturbances Related To Post-Traumatic Stress	86

9. Nocturnal Anxiety And Nocturnal Panic Attacks	88
10. Obstructive Sleep Apnea And/Or Central Sleep Apnea	90
11. Hypothyroidism And Sleep	92
12. Circadian Rhythm Sleep Disturbances	94
13. Chronic Hyperventilation, Fibromyalgia Syndrome And Sleep	96
Chapter V. EATING DISTURBANCES	99
1. Eating Inedibles (Pica) Due To Nutritional Deficiencies Or Addictive Cravings	100
2. Pica In Persons Unable To Discriminate Inedibles From Edibles	102
3. Pica In Persons Able To Discriminate Inedibles From Edibles	104
4. Excessive Eating Or Hyperphagia	106
5. Excessive Water Drinking (Polydipsia) Due To A Medical Condition (e.g., Diabetes)	108
6. Medication-Related Polydipsia	110
7. Polydipsia As An Ictal Phenomenon	112
8. Polydipsia As An Obsessive-Compulsive Feature	114
9. Polydipsia In Persons With Psychosis	116
10. Refusing To Eat In Persons With OCD Or Depression	118
11. Long-Standing Refusals To Eat Or Drink	120
12. Recent Onset Of Refusing To Eat	122
13. Dysphagia Or Swallowing Difficulties	124
Chapter VI. DEMENTIA	127
1. Hypothyroidism Presenting As Dementia	128
2. Depression Presenting As Dementia	130
3. Folate Or Vitamin B ₁₂ Deficiency	132
4. Anticonvulsant-Induced Cognitive Decline	134
5. Neuroleptic-Induced Cognitive Decline	136
6. Other Medication-Induced Dementia	138
7. Delirium	140
8. Frequent Dissociation Mimicking Dementia	142
9. Deteriorating Hearing Or Vision Mimicking Dementia	144
10. Severe Sleep Apnea Mimicking Dementia	146
11. Cognitive Decline After A Lengthy General Anaesthetic	148
12. Post Head Injury Cognitive Decline	150
13. Multi-Infarct (Vascular) Dementia	152
14. Alzheimer-Type Dementia	154
Chapter VII. UNWITNESSED OR UNUSUAL FALLS	157
1. Undetected Fracture After A Fall	158
2. Fainting From Low Blood Pressure	160
3. Brief Loss Of Consciousness Due To A Fall	162
4. A Seizure With Loss Of Consciousness In Persons Not Known To Have Seizures	164
5. Collapsing From Dehydration	166
6. Falling Due To Over-Sedation	168
7. Collapsing From A Heart Problem (e.g., Mitral Valve Prolapse)	170
